MONTANA WATER COURT, YELLOWSTONE DIVISION
YELLOWSTONE RIVER ABOVE AND INCLUDING BRIDGER CREEK BASIN
BASIN 43B
PRELIMINARY DECREE

CLAIMANT: Virginia R. Shane

CASE 43B-0922-R-2023
43B 194473-00

NOTICE OF FILING OF MASTER'S REPORT

This Master's Report was filed with the Montana Water Court on the above stamped date. Please review this report carefully.

You may file a written objection to this Master's Report within **10 days** of the stamped date if you disagree or find errors with the Master's finding of fact, conclusion of law, or recommendations. Rule 23, W.R.Adj.R. If the Master's Report was mailed to you, the Montana Rules of Civil Procedure allow an additional 3 days to be added to the 10-day objection period. Rule 6(d), M.R.Civ.P. If you file an objection, you must mail a copy of the objection to all parties on the service list found at the end of the Master's Report. The original objection and a certificate of mailing to all parties on the service list must be filed with the Water Court.

If you do not file a timely objection, the Water Court will conclude that you agree with the content of this Master's Report.

MASTER'S REPORT

The abstract of claim 43B 194473-00 states that the ditch name is Mill Creek Flat Ditch but the point of diversion legal description is for Upland Ditch. The Statement of Claim states that the ditch used is Mill Creek Flat Ditch. During preparation of the Preliminary Decree, the point of diversion legal description was changed to the legal description for Upland Ditch, not for Mill Creek Flat Ditch. In 2021, the Montana Department of Natural Resources and Conservation ["DNRC"] prepared a new marked aerial photograph for the Mill Creek claimants and the Court to use to determine the correct ditch name and point of diversion legal description. On June 21, 2023 the Order Consolidating Case And Setting Filing Deadline was issued to address this error with the claimant. A copy of the new marked aerial photograph was included. On July 7, 2023 the claimant filed her response stating that the ditch historically used for these water rights is the Mill Creek Flat Ditch. These documents are viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R.

FINDING OF FACT

The Preliminary Decree states that the point of diversion legal description is the NENENW section 3, T6S, R9E, PARK. The legal description should be the NESWNE section 3, T6S, R9E, PARK. The ditch name is already correctly appearing on the abstract as Mill Creek Flat Ditch.

CONCLUSION OF LAW

The new DNRC marked aerial photograph and response filed by the claimant are sufficient to contradict and overcome the prima facie claim as incorrectly modified prior to

issuance of the Preliminary Decree.

RECOMMENDATIONS

Based upon the above Finding of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Finding of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
